Indirect Supervision

Pupils will be closely monitored during the expedition, but they will be walking predominantly without a member of staff.

Pupils will be directly supervised at times of increased risk: road crossings, cooking, at camp etc.

Each group will be carrying a GPS Tracker.

Kit

Pupils are required to come prepared with the kit required to take part in the expedition.

The kit list included in the letter that went out before the summer can also be found on the DofE website and in the Year 10 Teams page.

Pupils will be provided with tents and cooking equipment by the school.

It is essential that everyone comes prepared for inclement weather with the appropriate kit. Please come and talk to us as soon as possible if you require help with any kit.

Phones

Each group will be provided with a school phone to use in emergencies during the expedition.

Pupils should not have their personal phones with them during the expedition.

Pupils will be able to leave their phones with the School Office when they depart and collect them when they return.

Food

Pupils are responsible for providing their own food for the duration of the expedition.

They should plan for 2 lunches, an evening meal, a breakfast and any additional snacks they think they might need.

Boil in the bag or equivalent for the evening meal will require much less washing up!
