1. Introduction

Personal, Social, Health and Economic Education (**PSHE**) enables pupils to become healthy, independent, and responsible members of society. At Clifton High School, pupils are encouraged to play a positive role in contributing to the life of the School and the wider community. The School's ethos of 'realising individual brilliance' is echoed throughout the teaching of PSHE. Pupils learn about a wide range of topics and issues that help them develop into successful and resilient individuals.

PSHE is "*a planned programme of learning opportunities and experiences that help children and young people grow and develop as individuals and as members of families and of social and economic communities.*" (PSHE Education Strategic Partners Group).

PSHE is "learning to live well." (PSHE Association).

A comprehensive programme of PSHE education is in place at Clifton High School which provides a broad and balanced curriculum, meets pupils' needs and prepares them for the challenges of adult life. It also contributes to the School's duties to safeguard pupils by teaching them about safety, including online-safety, sex and relationships.

2. School Values and School Ethos

The School's values of Curiosity, Empathy, Love, and Direction are reflected in the teaching of PSHE. These four values have shaped the Health and Wellbeing curriculum, which has been designed to promote diversity, economic wellbeing, self-worth, and a healthy lifestyle amongst pupils. Pupils are also taught how society is organised and governed and the School ensures that all pupils experience the process of democracy in school.

It is important that the School curriculum is underpinned by our School values and a set of common goals. Our common goals, which we reflect in our PSHE curriculum, are set out in the School's ethos:

"At Clifton High School, we want to ensure that all pupils enjoy learning, see the worth in a holistic education and to try their very best. We want pupils to learn how to deal with success

and defeat, and over time to discover their individual brilliance so that they can become passionate in their interests and, consequently, have fulfilling careers, providing the potential to live full and satisfying lives. Our School Ethos will celebrate the individual, in all the ways that we are different and ultimately all the way each of us is unique. We should be proud of who each of us is, our sex, gender, gender reassignment, age, race, colour, nationality, ethnic or national origin, disability, sexual orientation, religion, faith, or other beliefs. Clifton High School's ethos will look to create a safe culture in which our school aim, to realise individual brilliance, can be achieved."

3. Aims and Objectives

3.1 Aims

The aim of the PSHE curriculum is for pupils to 'realise their individual brilliance'. It is designed so pupils can:

- expand their spiritual, moral, social, cultural, and personal development through opportunities; provided and to prepare them for the responsibilities and experiences of life;
- prepare for active and responsible citizenship in our increasingly complex society;
- know and understand what constitutes a healthy lifestyle;
- be aware of safety issues;
- understand what makes for good relationships with others;
- have respect for everyone regardless of race, gender, and mental and physical disability;
- be independent and responsible members of the School community;
- be positive and active members of a democratic society;
- develop self-confidence and self-esteem and make informed choices regarding personal and social issues;
- develop good relationships with other members of the School and the wider community;
- discuss the main political and social institutions that affect their lives and their responsibilities, rights and duties as individuals and members of the community;
- develop their awareness and understanding of political issues in an impartial manner and in accordance with the laws of this country;
- develop an understanding of economic wellbeing;
- understand how to set career goals and explore a range of career options; and
- establish a safe environment for all genders and sexual orientations.

3.2 Objectives

The purpose of PSHE education at Clifton High School is to promote knowledge, understanding and appreciation of:

- the importance of a healthy lifestyle and keeping themselves and others safe;
- the principles of distinguishing between right and wrong and how to deal effectively with the moral, social, and cultural issues that are part of growing up;
- the differences between their own and other cultures and how to value differences;
- the importance of being a valuable citizen;

- the importance of equality, equal opportunities, challenging discrimination and the dangers of stereotyping;
- the establishment a safe environment for all pupils regardless of their sexual orientation and gender;
- the importance of self-esteem and emotional well-being;
- the importance of assessing and managing risk, how to deal with the influence of extremism, new technology and substance misuse;
- the importance of forming worthwhile and satisfying relationships based on respect for themselves and others;
- sex and relationship education;
- the importance of responding positively to opportunities and responsibilities;
- how to deal with change and adversity and to develop resilience;
- British Values;
- Career and Education paths; and
- economic education.

4. Teaching and learning strategies

To teach PSHE effectively, it is important that a variety of teaching and learning strategies are employed. PSHE is taught through cross curricular links, assemblies and other activities or school events (e.g., themed weeks, anti-bullying day, residential visits, enrichment and special activities planned to allow the children to work together under different circumstances). Specialist visitor speakers are invited to speak with pupils and parents about specific aspects of the PSHE curriculum. In the past, these topics have included body image, sexual health, LGBTQ+ awareness, drug and alcohol use and phone addiction.

3. Curriculum Provision

Although PSHE has allocated times in the class timetables, it should not always be confined to those specific times. The PSHE and Citizenship curriculum is delivered within a whole school approach which includes:

- dedicated curriculum time;
- teaching PSHE and Citizenship through and in other subjects/curriculum areas;
- specialised assemblies;
- PSHE and Citizenship activities and school events; and
- pastoral care and guidance.

4. The Infant School and Junior School

4.1 Themes

At Clifton High School, PSHE is an important and integral part of the whole curriculum. Under the Idecision scheme, it falls into three core themes: Health & Wellbeing, Relationships and Living in the Wider World. PSHE will be provided in a variety of ways, to reflect the age of the pupils and ensure a whole school approach.

The three core themes have the following learning objectives:

Health & Wellbeing

- Know and understand what constitutes a healthy lifestyle.
- Make informed decisions about health.
- Be able to recognise how choices can impact health and wellbeing.
- Know how to maintain physical, mental, and emotional health and wellbeing.
- Be aware of safety issues, including how to respond in an emergency.
- Know how to manage change, including puberty, transition, and loss.
- Understand what good physical health means and recognise signs of physical illness.
- Develop problem solving skills for dealing with emotions, challenges and change.

Relationships

- Develop and maintain a variety of healthy relationships within a range of social and cultural contexts.
- Recognise different types of relationships.
- Know how to recognise and manage emotions within a range of relationships.
- Know how to recognise risky or negative relationships, including all forms of bullying and abuse, and ask for help.
- Demonstrate the School's value of love and know how to respect equality and diversity in relationships.
- Develop strategies for building positive friendships and strategies to resolve disputes.

Living in the Wider World

- Know the importance of responsible behaviours and actions and recognise the reasons for rules and laws.
- Demonstrate the School's value of love by being a responsible and independent member of the school community.
- Be positive and active members of a democratic society.
- Demonstrate the School's value of love by knowing the importance of respecting and protecting the environment.
- Develop self-confidence and self-esteem and make informed choices regarding personal and social issues.
- Demonstrate the School's value of empathy and develop compassion and good relationships with other members of the school and the wider community.
- Learn about prejudice and how to recognise actions that discriminate against others.
- Understand about where money comes from, keeping it safe and the importance of managing it effectively.
- Have a basic understanding of enterprise.

4.2 EYFS - Year 2

Children learn about themselves as developing individuals and as members of their communities, building on their own experiences and on the early learning goals for personal, social, and emotional development. The School's values of love and empathy are promoted throughout the curriculum so children can actively contribute to the School community in a positive way. They learn the basic rules and skills for keeping themselves healthy and safe and

for behaving well. They have opportunities to show they can take some responsibility for themselves and their environment. They begin to learn about their own and other people's feelings and become aware of the views, needs and rights of other children and older people. As members of a class and the school community, they learn social skills such as how to share, take turns, play, help others, resolve simple arguments, and resist bullying. They begin to take an active part in the life of the School and its community.

The areas of focus for Year 1 and Year 2 are set out below:

- Year 1: Road safety, washing hands, friendship, being responsible, jealousy, online bullying, growing in our world.
- Year 2: Tying shoelaces, healthy eating, brushing teeth, bullying, body language, practice makes perfect, helping someone in need, worry, anger, image sharing, computer safety, the human life cycle, human body parts, working in our world.

4.3 Year 3 - Year 6

Children learn about themselves as growing and changing individuals with their own experiences and ideas, and as members of their communities. They become more mature, independent, and self-confident. They learn about the wider world and the interdependence of communities within it. They develop their sense of social justice and moral responsibility and begin to understand that their own choices and behaviour can affect local, national, or global issues and political and social institutions. They learn how to take part more fully in school and community activities. As they begin to develop, they face and learn about the changes of puberty and they learn how to make more confident and informed choices about their health and environment; to take more responsibility, individually and as a group, for their own learning; and to resist bullying.

The Idecision programme is structured into different modules which are linked to the three core themes of Health and Wellbeing, Relationships and Living in the Wider World. Each module within the Idecision series builds on information taught in previous years and begins with a baseline assessment of the pupils' current knowledge, which allows teachers to address any gaps in their learning. Please see Appendix 1 for more information.

The areas of focus for Years 3 - 6 are the following:

- Year 3: Staying safe, leaning out of windows, medicine, touch, stealing, grief, making friends online, human body parts, friendships, looking after our world.
- Year 4: Cycle safety, healthy living, appropriate touch, being responsible, jealousy, online bullying, chores at home, puberty: stages for boys and girls, coping with puberty, breaking down barriers, first aid.
- Year 5: peer pressure, smoking, looking out for others, anger, image sharing, enterprise, inclusion and acceptance, puberty: stages for boys and girls, personal hygiene, emotions and feelings, appropriate touch, first aid.

• Year 6: water safety, alcohol, stealing, worry, making friends online, in-app purchases, British Values, puberty: stages for boys and girls, conception, becoming independent, positive and healthy relationships, appropriate touch, first aid.

5. The Senior School

5.1 PSHE

PSHE is taught in Health and Wellbeing lessons. These take place each week on a Wednesday. PSHE education is best developed when pupils learn, practise, and demonstrate personal skills and are actively involved in and take responsibility for their learning.

A wide variety of approaches and activities, appropriate to the pupils' age, encourages pupils to participate and remain engaged in lessons. These approaches and activities include:

- whole class and small group discussion;
- simulation and role-play;
- study of case studies;
- creative writing;
- open and closed questioning;
- collaboration with other pupils;
- designing sheets and posters; and
- listening to and interacting with visiting speakers.

This list is not exhaustive. In accordance with the PSHE Association's recommendations, the curriculum is purposefully distanced. Lessons have been planned so pupils study case studies, rather than share their personal experiences. This encourages pupils to think objectively about particularly challenging situations and share their ideas in a safe learning environment.

Throughout pupils' Health and Wellbeing lessons, they will cover a range of PSHE and RSE topics. Please see Appendix 2 for more details about the curriculum.

5.2 The Sixth Form

In the Sixth Form, the PSHE curriculum is taught as part of the Health and Wellbeing and Futures and Skills programmes. These lessons are taught on a Wednesday every week and alternate between the teaching of Health and Wellbeing and the teaching of Future and Skills. Please see Appendix 3 for more details about the curriculum. The Health and Wellbeing and Futures and Skills Programmes are specifically designed to allow students to develop their financial, social, political, cultural, and spiritual awareness of the world around them. They will learn about sex and relationships as well as the skills to maintain a healthy lifestyle. The Future and Skills programme is specifically designed to guide and prepare them for the course that they aspire to study in tertiary education. In addition to Health and Wellbeing and Futures and Skills, the following support is offered:

5.2.1 Fundamental British Values

- Invitation of speakers to talk about British Law.
- Support for Sixth Form students to understand that they are leaders of the School's pupil

body through Sixth Form briefings.

- Democratic elections for the candidates in the Head's Team.
- Democratic elections for the House Captains and their deputies.
- School Pupil Council run by the Head's Team with representatives from Years 7-13.
- Support and guidance in undertaking leading positions within the School.
- Tolerance and respect of other cultures.
- Tolerance and respect of other cultures' faith through whole school assemblies organised and led by Sixth Form students.

5.2.2 Development of Students' Awareness of Positive Relationships and a Healthy Lifestyle

- Content to support pupil development taught through fortnightly Health and Wellbeing lessons.
- Guest speakers invited to speak to pupils about core topics such as sexual health, relationships and maintaining a general healthy lifestyle.
- Regular student feedback from Student Council and pupil questionnaires used to inform and update the learning needs of pupils.

5.2.3 Development of Students' Personal Qualities

- Support with Work Shadowing Scheme which is run by the Head of Careers.
- Encouraging students to volunteer through the *Duke of Edinburgh Award, World Challenge* and House activities led by student House Captains.
- Entrepreneurial opportunities through *Futures and Skills* apprentice-type activities.
- Running clubs for younger pupils which are of personal interest to Sixth Form students.
- Support for pupils in Years 7 and 8.
- Scholars' Forum led by the Director of Scholars and assigned Sixth Form Scholars for all Clifton High scholars and other interested pupils.
- Oxbridge Forum led by Heads of Department with the participation of Sixth Form students allowing students to develop their thought processes.
- Public speaking through allocated school assemblies presented by students and Head's Team speeches.
- Individualised fortnightly tutorials.

5.2.4 Impartial Careers Guidance

- Individualised meetings with Year 11 pupils and their parents offering guidance and support in making informed decisions on their A level choices organised by the Head of Sixth Form.
- Year 11 Taster Day and Taster Lessons for an impartial understanding of requirements of Sixth Form, tailored for pupils only.
- Sixth Form Open Evening guidance and information for both Year 11 pupils and their parents on Sixth Form options meeting with Heads of Department and Clifton High School alumni representatives on suitability of courses.
- Careers Convention Day organised by the Head of Higher Education and Careers and run at the School by representatives of a variety of professions.
- Tutor assigned for individual students with expertise on the Sixth Form process.

- Advice offered by Admission Tutors from Russell Group and other tertiary institutions as part of the Examinations Evening and the Sixth Form Open Evening (at least twice yearly).
- University Taster Days promoted to students through the Sixth Form Information boards, the Head of Higher Education and Careers and Sixth Form briefings. Students are urged to visit Universities of their choice twice every term from the start of their Sixth Form studies.
- Impartial individualised meetings with Head of Higher Education and Careers for guidance and support on career choices.
- Oxbridge awareness sessions.
- UCAS process: Seven Steps for support with student university choices and applications.
- UCAS Convention Day allowing students to talk with representatives of the Universities they would like to apply and attend.

Please see appendix 3 for more information on the Sixth Form PSHE curriculum.

6. Roles and responsibilities of staff

The PSHE programme has been designed by the Head of PSHE, and the curriculum has been overseen and agreed by the Deputy Head, Pastoral, and by the governors nominated to oversee the PSHE curriculum.

PSHE in the Infant and Junior School is taught on a weekly basis by the class teacher. PSHE in the Senior School and Sixth Form is taught by form tutors on a weekly basis. All teaching staff have access to appropriate learning resources and have received the necessary training to support their teaching of PSHE and RSE at Clifton High School.

7. Statutory regulations and guidance

Schools are required to teach relationships education as part of the revised Department of Education statutory guidance. The Department of Education stipulates that all schools must deliver relationships education (in primary schools) and relationships and sex education (in secondary schools). Department for Education Guidance can be found here: <u>Relationships</u> <u>Education</u>, <u>Relationships</u> and <u>Sex</u> <u>Education</u> and <u>Health</u> <u>Education</u> <u>guidance</u> (<u>publishing.service.gov.uk</u>).

These guidelines inform the teaching and learning of RSE at Clifton High School together with the following:

- Education Act (1996);
- Learning and Skills Act 2000;
- Education and Inspections Act 2006;
- Equality Act (2010);
- Keeping Children Safe in Education 2023; and
- Children and Social Work Act 2017.

8. Assessment and feedback

There is a high expectation of the quality of pupils' work and regular feedback is provided on pupils' progress. Feedback is provided on pupils' work to assess progress and identify where

pupils require extra support and intervention. Teachers will be able to measure progress by pupils' work, classroom contributions and completed reflection logs, following a visit from a guest speaker as well as written assignments and self-evaluation forms.

Pupil voice will be used to reflect and feedback on the PSHE curriculum. Pupil voice is collated through a variety of means. For example, the School Council, pupil questionnaires and PSHE focus groups are all used to gather pupil opinion. Teacher voice is also gathered every term, to inform the future teaching of PSHE.

In the Infant and Junior School, teachers assess the progress of pupils through Idecision assessments at the start and the end of modules, allowing teachers to track pupil progress and identify gaps in understanding. Teachers also continually measure progress through pupils' classroom work and discussions.

9. Evaluation and Monitoring

The PSHE policy is written using statutory guidelines as outlined in the national curriculum. Therefore, in accordance with Article 9 of the European Convention on Human Rights where freedom of thought, conscience and religion are guaranteed, and religion or belief is a protected characteristic under the Equality Act 2010, the teachers and the School strives to ensure that their conduct recognises their responsibilities under those duties to others. Considering the sensitive nature of some of the topics discussed at PSHE sessions, teachers are expected to respect the rights of others and to respect those with different faiths and beliefs; expressing a view in an unprofessional way that involved singling out pupils, for example on grounds of sexuality or presenting extreme views without balance on a topic such as marriage for same sex couples, it is considered inappropriate and certainly discouraged by the School.

The Deputy Heads oversee the monitoring of the standards of children's work and the quality of teaching and learning.

10. Role of the Parent

The PSHE programme is made available on the secure parent area of the School's website. Parents are consulted on both the PSHE and RSE programme and are invited to give feedback on the curriculum each academic year. Parents are also informed of the PSHE programme via the weekly parent bulletin.
